HOMEWORK - الواجب For Thursday, April 3rd

- Study for our midterm exam. Use the tips on the back of this agenda to help guide you.

Tips for the Midterm

These are some general tips. They may not include everything that will appear on the midterm, but they should help guide your studying.

- **Dictations:** Use previous drills from the book to sharpen your skills. Email Ms. S. if you need answers.
- **Reading:** Be sure you know how to read and pronounce all the letters, vowels, and symbols.
- **Vocabulary:** Refer to the Quizlet list for an updated collection of vocabulary terms. Be sure that you know not only the meaning of the word, but also the gender and type of word it is (verb, noun, pronoun, etc.).
- **Letter Connections:** Look back at old homework assignments to see if there are letters that consistently give you trouble. Make sure you can confidently produce each letter in all four forms.
- **Sentences:** Look back at the most recent weekend homework, as well as the pairs practice from last week, to familiarize yourself with how to form sentences and answer questions in Arabic.
- **Numbers:** Be sure you know how to write the numbers 0-10 in Arabic.
